

ACTION SAMPLER

THE INCREDIBLE FOUR-LENS PHOTO-PHOTO-PHOTO-PHOTO CAMERA.

"What makes this little camera the ultimate device for capturing fast-moving documentation of everyday movements is its breathtaking capacity to immortalise 4 images in series on each of your negatives. From nose-picking, teeth chattering or knee-shaking, to furious flatulence."

OVERVIEW:

With just one click the action sampler allows you to take a four picture series, so you're able to capture every bit of summer action from the beach to the bath tub.

Made mostly from plastic this camera does not bother with aperture and lighting, it won't even take a flash which makes it the perfect accessory for the coming summer. The brighter the day, the brighter the colour, making your pictures as hot as the summer weather.

The simple and easy to use design means that anyone can enter the wonderful world of moving pictures!

SPECIFICATIONS:

Size: 100mm x 31mm x 58mm

Film Format: standard 35mm film

Lens: four sets of 26mm single element sequentially operated lenses

Shutter speed: 1/100 second

Focus range: fix-focus from 1.2 metres to infinity

Processing: 35mm processing at any lab, supermarket, bullfight, etc

FEATURES:

Four Lenses: the four built in lenses featured on each Action Sampler are the key to getting those awesome action shots that you will not get anywhere else.

Collapsible Viewfinder: You get to see first-hand, what your camera is seeing thanks to this nifty viewfinder. But do note that it's not 100% accurate which is all part of the fun!

Light weight: At only 100 grams you can take this little baby everywhere with you and capture every moment of your life.
